18-04-2003

SKILLS

Data Structure Algorithms & Operating System.

Python Programmer
(11 th & 12 th) in Open GL

C++, Mostly Arduino Programming based in C,UE learner
Illustrator in preassembled C language.

Working On Platform IO, Azure Learner

Verbal & Written Communication

Animation and Video editing

Haskell and Angular JS Learner
(in developing interior section.)

Team Manager & Vocational Orator

Microsoft Office

PROFESSIONAL EXPERIENCE

Web Developer Intern | MurphTech Software Solutions
Nov 2023 – April 2024 (6 Months)

- **Developed dynamic web applications** within the Development department to improve site functionality and interactivity.
- **Collaborated under the Founder/CEO** to translate business requirements into functional code.
- **Contributed to the full SDLC**, including debugging and optimizing web components for high performance.
- **Optimized front-end components** for maximum speed and scalability, ensuring 100% compatibility across diverse mobile and desktop browsers.
- **Maintained clean, documented code** and utilized version control systems to ensure project continuity and team collaboration.

Java Full Stack Developer (Virtual Intern) |
EduSkills Academy *Oct 2025 – Dec 2025 (3 Months)*

- **Executing a 6-month Java Full Stack program**, focusing on end-to-end application development.
- **Developing web applications** using Java backend technologies and modern front-end frameworks.
- **Applying industry-standard software practices** in a virtual environment to meet project milestones.
- **Built and optimized scalable database structures** and integrated them with functional user interfaces.
- **Architecting and optimizing scalable database schemas** using SQL to support high-concurrency data storage and retrieval.
- **Applying industry-standard Agile methodologies** and software development best practices within a virtual collaborative environment to meet project deadlines.
- **Implementing robust API integrations** and server-side logic to enhance the functionality and performance of web-based solutions.

PROFILE

An enthusiastic Computer Application Student with great programming skills alongside leadership, team cooperation and interpersonal skills. Keep a great zest in implementation of each step of project. Eager to learn new technologies and methodologies. Always willing to innovate the new things which can improve the existing technology.

EDUCATION:

Masters of Computer Application (MCA)
o University: RGPV, Bhopal, M.P.
o College: Lakshmi Narain College of Technology (LNCT), Bhopal (2025-2027)

Bachelors of Computer Application (BCA)
o University: Barkatullah, Bhopal, M.P.
o College: Bhopal School of Social Sciences (BSSS), Bhopal (2021-2024)

Percentage: 80.30%

Intermediate,
Vikram Higher Secondary School (VHSS) | Bhopal
Percentage: 83% 2020-2021

HighSchool,
Vikram Higher Secondary School (VHSS) | Bhopal
Percentage: 80% 2019-2020

PROJECTS

Project: Interactive 3D Developer Portfolio
Tech Stack: React.js, Three.js, React Three Fiber (R3F), GSAP, Framer Motion, Tailwind CSS, Vite.

- **Key Achievement:** Engineered a high-performance immersive 3D environment featuring real-time WebGL rendering.
- **Core Features:** Integrated **custom 3D models (Spline)**, scroll-triggered animations (GSAP), and an elastic cursor physics engine.
- **Performance:** Optimized 3D asset delivery and lazy loading to ensure a seamless **60 FPS experience** across mobile and desktop devices.
- **Architected a modular component system** to manage complex 3D scenes, ensuring the codebase is scalable and easy to maintain for future feature updates.
- **Leveraged WebGL and GPU acceleration** to handle high-fidelity animations without compromising the main thread's processing speed.

Project: Restaurant Table Booking System
Technologies: PHP, MySQL, HTML, CSS, JS
Back-end Executive (Intern) | Express-E-Connect Pvt Ltd
May 2024 – Oct 2024 (6 Months)

- **Developed a dynamic reservation system** using PHP and MySQL to automate table bookings and reduce manual overhead.
- **Engineered a custom Admin Panel** for real-time management of approvals, cancellations, and table availability.
- **Designed a secure database architecture** to handle CRUD operations and ensure data consistency during peak hours.
- **Managed backend operations** within the Public Relations department, ensuring efficient data handling and client information management.
- **Collaborated under the Project Head** to maintain accurate records and facilitate smooth communication between the technical and PR teams.

Project: AI-Powered OCR & Handwriting Digitization Platform
Technology Matrix: Python (Django), OpenCV, Google Gemini 1.5 Flash API, PyTesseract, NumPy, Pillow (PIL), SQLite/PostgreSQL.

- **Architected a Hybrid AI Engine** by orchestrating **Google Gemini 1.5 Flash** and **Tesseract OCR** to extract high-fidelity text from unstructured handwritten documents.
- **Engineered a Vision Pipeline** in **OpenCV** using **Adaptive CLAHE** and **Bilateral Filtering** to eliminate environmental noise and normalize document lighting.
- **Developed a Heuristic Ranking Algorithm** to evaluate multiple **Page Segmentation Modes (PSM)** and automatically select outputs with the highest lexical density.
- **Implemented Semantic Layout Analysis** using LLM prompt engineering to programmatically reconstruct hierarchies like **nested headers, tables, and body text**.
- **Engineered a Robust Logging Framework** using **Django Middleware** to monitor pipeline latency and ensure high system availability during peak workloads.

CERTIFICATES

Master Course in Microsoft MS-720: MS Teams Voice Engineer
- **Technical Proficiency**: Completed a comprehensive technical training course on designing, configuring, and managing Microsoft Teams Phone solutions.
- **Core Competencies**: Gained expertise in voice engineering, including the integration of telecommunications and collaboration tools within the Microsoft 365 ecosystem.

Learn PHP - For Beginners (Udemy)
- **Back-End Fundamentals**: Mastered core PHP concepts to build a strong foundation in server-side scripting and dynamic web applications.
- **Web Logic**: Implemented basic web development principles and programming logic using PHP.

Ace your career with the Power of Artificial Intelligence
- **AI Integration Strategies**: Explored the transformative power of Artificial Intelligence to enhance professional workflows and career productivity.
- **Core AI Concepts**: Gained a foundational understanding of AI tools and technologies across 12 specialized lectures.

Learn JavaScript Programming In Hindi (Udemy)
- **JavaScript Fundamentals**: Mastered core programming concepts, including variable management and logical development.
- **Dynamic Web Development**: Acquired practical skills in using JavaScript to create interactive web elements and enhance user experiences.

The Python Programming Comprehensive Bootcamp
- **Python Programming Proficiency**: Gained a comprehensive understanding of Python from foundational basics to advanced implementation.
- **Structured Technical Training**: Completed an intensive bootcamp consisting of 76 lectures and 4.5 hours of high-density technical content.

Certification in C & C++ | Makhanlal Chaturvedi University
- **Early Programming Exposure**: Introduced to foundational programming logic and syntax in C/C++ through a university-certified junior program.
- **Long-term Interest**: Developed an early interest in software development, providing a strong base for later advanced studies in Java and Python.

The Java Learning Guide (Udemy)
- **Java Core Competencies**: Mastered fundamental Java programming concepts through a comprehensive 9-hour technical curriculum.
- **Practical Development**: Completed hands-on modules designed to translate theoretical knowledge into functional code.

TOOLS

Tools: IntelliJ IDEA, VS Code, Pycharm , Browser DevTools
- **IDEs & Editors**:
- **IntelliJ IDEA** (Java/DSA)
- **PyCharm** (Python)
- **VS Code** (Web Development & PHP).

- **Web Tools**: **Browser DevTools** (Debugging and Inspecting UI/UX).
- **Collaboration**: **MS Teams** (Enterprise Communication).

COURSES

Professional Training: Java + Data Structures & Algorithms (DSA)
Sheryians Coding School | Java + DSA Trainee Feb 2026 – Present
- **Intensive Technical Training**: Enrolled in a rigorous 8-month offline professional training program at **Sheryians Coding School**, focused on advanced problem-solving and software development.
- **Core Technical Stack**: Developing a deep mastery of **Java Programming** and **Data Structures & Algorithms (DSA)** to optimize code efficiency and performance.
- **Problem-Solving Proficiency**: Actively practicing complex algorithmic challenges to strengthen logical reasoning and computational thinking.
- **Industry-Ready Skills**: Gaining hands-on experience in building scalable logic, preparing for high-level technical roles in software engineering.

Front-End Web Development Training
Reliance Foundation & NSDC Academy
- **Duration:** 240 Hours (Comprehensive Training)
- **Skills Gained:** HTML5, CSS3 (Flexbox/Grid), JavaScript (ES6), Responsive Web Design, Troubleshooting.
- **Key Accomplishment:** Completed hands-on training including structured assessments and project-based learning.
- **Comprehensive Front-End Certification**: Mastered a 5-module curriculum covering HTML, CSS, and Advanced JavaScript to build user-friendly web interfaces.
- **Modern Layout & Logic**: Proficient in responsive design using CSS Flexbox and implementing core JavaScript logic, including OOP classes and array manipulation.
- **Semantic & Interactive Development**: Skilled in structuring data with semantic HTML and developing interactive elements for direct user engagement.
- **Verified Industry Credential**: Earned a recognized certificate (Completed Feb 27, 2026) through the **Skill India Digital Hub**, validating technical competency in front-end architecture.

Web Design & Development
(NSDC | Skill India Digital Hub)
- **Specialized Skilling**: Successfully completed a verified online skilling course focused on the core principles of modern Web Design and Development.
- **Technical Proficiency**: Gained insights into industry-standard practices for creating functional and aesthetically driven web architectures.
- **Verified Industry Credential**: Earned a Certificate of Participation through **NSDC** and **Skill India Digital Hub** on February 27, 2026.

Cybersecurity Foundation
(Tech Mahindra Foundation | NSDC)
- **Industry-Aligned Skilling**: Successfully completed a 10-hour specialized course in Cybersecurity offered by **Tech Mahindra Foundation** through the **Skill India Digital Hub**.
- **Security Fundamentals**: Gained a foundational understanding of digital security protocols and best practices to protect data and systems.
- **Verified Credential**: Earned an industry-recognized certificate of participation (Completed Feb 27, 2026) validating awareness of modern cyber threats.

Fundamentals of Artificial Intelligence (AI) for Retail
Organized by: Retailers Association's Skill Council of India (RASCI)
- **Specialized AI Training**: Completed a 30-hour micro-credential course through the **Retailers Association's Skill Council of India** via Skill India Digital Hub.
- **Emerging Technologies**: Gained foundational knowledge in cutting-edge tools including **Predictive Analytics, Chatbots, and Computer Vision**.
- **Automation & Personalization**: Studied how AI-driven automation and data analytics improve operational efficiency and customer engagement.
- **Industry Readiness**: Acquired insights into the practical application of AI within the retail sector and beyond.

ACTIVITIES

Academic & Tech Exchange Programs
Participant | TechnoCambiar (Student-Faculty Exchange Program)

- **Collaborative Learning**: Selected for an intensive online exchange program organized by the Department of Computer Applications, BSSS College, Bhopal.
- **Institutional Synergy**: Engaged with students and faculty from St. Thomas College (Bhilai) and St. Paul Institute of Professional Studies (Indore) to discuss advancements in Mathematics and Computer Science.
- **Technical Engagement**: Participated in a 15-day academic exchange (Dec 8–23, 2021) focused on knowledge sharing and technical development.

Professional Development & Soft Skills
UNXT Graduate | SGBS UNNATI FOUNDATION
(Govt. Divisional ITI, Bhopal)

- **Comprehensive Training**: Successfully completed a **165-hour** intensive Soft Skill Development Program (UNXT).
- **Core Competencies**: Developed professional-grade proficiency in **Spoken English, Employability Skills, and Life Skills**.
- **Professional Values**: Gained a deep understanding of corporate value systems to ensure smooth integration into professional work environments.
- **Program Timeline**: Completed the rigorous training from February 17, 2025, to March 29, 2025.

Achievements & Competitions
National E-Quiz on Statistics Day 2022 | Participant

- **High Performance**: Successfully cleared the National E-Quiz organized by the Science Club, Department of Science (BSSS College) with an outstanding **90% score**.
- **Analytical Skills**: Demonstrated strong proficiency in statistical concepts and logical reasoning through national-level academic competition.

Extracurricular Activities
Participant | "Avengers Assemble" – IGNIS Literary Society

- **Active Participation**: Represented as a student participant in a collaborative event organized by The Bhopal School of Social Sciences (BSSS).
- **Soft Skills**: Developed communication and teamwork abilities through engagement in collegiate literary society activities.

SPECIALIZED TECHNICAL CERTIFICATIONS

Data Visualisation: Empowering Business with Effective Insights
Tata Group (via Forage Virtual Experience Program)

- **Data Analytics & Problem Solving**: Gained hands-on experience in **Data Analysis, Data Cleaning, and Data Interpretation** to solve complex business problems.
- **Business Intelligence**: Developed proficiency in **Dashboard Development and Data Visualisation** to translate complex data into actionable business insights.
- **Strategic Communication**: Mastered **Effective Communication** and data storytelling, focusing on framing business scenarios and presenting strategic insights to stakeholders.

Solutions Architecture Job Simulation
AWS (via Forage Virtual Experience Program)

- **Cloud Infrastructure Design**: Completed a practical simulation focused on designing a simple, scalable, and hosting architecture using **AWS** best practices.
- **Architecture & Scalability**: Gained hands-on exposure to **System Architecture** principles to ensure high performance and reliability.
- **Cost & Technical Management**: Developed skills in **Cloud Cost Management** and effective **Technical Communication** for professional cloud environments.

Global Banking & Markets Job Simulation
HSBC (via Forage Virtual Experience Program)

- **Financial Logic & Analysis**: Completed practical simulations involving **Mergers and Acquisitions (M&A)**, **Debt Capital Markets**, and **Credit Analysis**.
- **Quantitative Skills**: Applied **Statistical Analysis** and **Volatility Analysis** to identify market opportunities and improve trade processes.
- **Banking Operations**: Gained exposure to **Digital Banking** trends, **Asset Management**, and **Risk-Adjusted Returns** calculations.
- **Business Strategy**: Developed **Strategic Reasoning** and **Due Diligence** skills by creating debt market updates and identifying expansion targets.

Technology Job Simulation
Deloitte (via Forage Virtual Experience Program)

- **Software Development Cycle**: Completed practical tasks focused on **Coding and Development** within a professional technology consulting framework.
- **Technical Breadth**: Gained hands-on exposure to **Data Analysis, Data Modeling, and Data Structures**.
- **Engineering Standards**: Developed a foundation in **Computer Networking, Web Security, and Log Analysis** to build secure and robust software.
- **Professional Workflow**: Utilized **Python Programming** and **Spreadsheet Skills** while practicing **Formal Communication** and project planning.

Cyber Job Simulation
Deloitte (via Forage Virtual Experience Program)

- **Security Specialization**: Completed an industry-standard simulation focused on **Cyber Security** protocols and defense mechanisms within a professional consulting environment.
- **Technical Engineering**: Gained practical skills in **Web Security, Computer Networking, and Log Analysis** to identify and mitigate digital threats.
- **Data-Driven Security**: Applied **Data Analysis and Data Modeling** techniques to analyze security logs and improve system robustness.
- **Professional Proficiency**: Developed foundational expertise in **Programming and Software Development** with a focus on writing secure code.
